Summary

Full-Stack AI Developer specializing in responsive, scalable, and AI-powered applications. Experienced in React, Next.js, React Native, Django. Skilled in Firebase, MongoDB, and SQL databases technologies and robust API development. Experienced in LLM integrations, Retrieval-Augmented Generation (RAG), and AI application development. Proficient in building intelligent automation workflows using n8n and modern AI technologies.

Skills

Languages: JavaScript(ES6+), Python, C++

Technologies/Frameworks: React/Next, React-Native, Django, Tailwind CSS, REST API, JWT, Socket IO

Database: Mongo-DB, SQL, Firebase

Tools: VS Code, Anti-Gravity, Cursor AI, Github-Copilot, Claude AI

AI/Machine Learning: Prompt-Eng, Lang chain, RAG, LLM, N8N, Agentic AI, Py-Torch, Open-CV, Scikit-learn

Experience

Freelancer

Mar-2025–Present

Self Employed

- Working Across Different Projects on React-native User Interfaces or Next js, Saas and Attractive Websites Designing with Functionalities
- Develop AI-driven solutions by integrating modern technologies such as LLMs, RAG, APIs, and intelligent automation workflows, with Backend Handling

Nationwide Enterprises

Dec-2024–Sep-2025

Outbound Sales agent in Truck Dispatch Campaign

- Generated and qualified leads, negotiated service terms, and built strong client relationships through consistent follow-up and clear communication.

Lecturer

Apr-2024–Dec-2024

City Science Acadmey

- Teaching Computer Science , Mathamatics and Physics Subjects to Matriculation and Intermediate Classes

Projects

Khan's Store | *React.js, Django, PostgreeSQL, JWT*

- Built a full-stack E-commerce platform using React and Tailwind CSS, implementing responsive UI, JWT authentication, and secure user access.
- Developed the backend architecture using Django REST Framework, designing RESTful APIs to handle authentication, products, orders, users, and core e-commerce operations.

X-Chat (AI-Chatbot) | *Next.JS, Django, PostgreSQL, Gemini's LLM*

- Developed a real-time AI chatbot using Next.js, Django, and Google Gemini LLM API to generate intelligent and context-aware responses.
- Built responsive chatbot interfaces using React, Next.js, and Tailwind CSS with seamless real-time user interactions.
- Integrated Django REST APIs with Gemini to securely process user queries and generate context-aware AI responses.

NIMO – Real-Time Chat Application | *React Native, Firebase, Socket.io*

- Built a cross-platform real-time messaging application using React Native, supporting one-on-one and group conversations.
- Integrated Firebase and Socket.io to enable real-time message delivery, read receipts, and live online status updates.
- Designed a responsive chat interface with persistent local storage, ensuring smooth performance across iOS and Android devices.

Education

Superior University

Fall 2022 – Fall 2026

Bachelor of Science in Computer Science

Unique Group of Colleges

2020 – 2022

ICS with Physics and Computer Science
